ABOUT THIS ASSESSMENT

How to complete it

Read each question and circle or tick the answer that most accurately describes your organisation right now - not where you would like to be. Honest answers give you the most useful result. Complete all 12 questions, add up your score, and use the results guide at the end to identify your recommended next step.

Answer Option	Score
First answer (A)	1 point
Second answer (B)	2 points
Third answer (C)	3 points
Fourth answer (D)	4 points

Total possible score: 48 points (12 questions x 4 points maximum each). See the results guide on the final page.

Section 1: Awareness and Understanding

Q1. Do most people in your team know what Microsoft Copilot is?

- | | | |
|----------|--|--------------------------|
| A | No - most have not heard of it | ☐ |
| B | Some have heard of it but do not know what it does | ☐ |
| C | Most know what it is but have not used it | ☐ |
| D | Most are familiar and have tried it | ☐ |

Q2. Does your team understand the difference between free Copilot and paid Microsoft 365 Copilot?

- | | | |
|----------|---|--------------------------|
| A | No - we are not sure what the difference is | ☐ |
| B | A few people know but most do not | ☐ |
| C | Most have a rough idea | ☐ |
| D | Yes - we understand the licence options clearly | ☐ |

Q3. Are staff aware of what Copilot can and cannot do?

- | | | |
|----------|---|--------------------------|
| A | No - most assume it can do anything or are not sure | ☐ |
| B | There is a lot of confusion about its limits | ☐ |
| C | Some people understand it reasonably well | ☐ |
| D | Most staff have a realistic picture of its capabilities | ☐ |

My score for this section:

___ / 12

Section 2: Adoption and Usage

Q4. How widely is Copilot currently being used in your organisation?

- | | | |
|----------|---|--------------------------|
| A | We have not started yet | ☐ |
| B | A handful of early adopters only | ☐ |
| C | Several teams are using it but adoption is patchy | ☐ |
| D | Most teams use it regularly | ☐ |

Q5. When staff use Copilot, how confident do they feel?

- | | | |
|----------|---|--------------------------|
| A | Most feel overwhelmed or do not know where to start | ☐ |
| B | Some try it but give up quickly | ☐ |
| C | Confident in a few basic tasks but not much beyond that | ☐ |
| D | Confident across a range of tasks | ☐ |

Q6. Are there clear use cases or workflows where your team has tried Copilot?

- | | | |
|----------|---|--------------------------|
| A | No specific use cases identified yet | ☐ |
| B | A few individuals have found their own uses | ☐ |
| C | Some team-level use cases have been identified | ☐ |
| D | We have defined use cases across multiple teams | ☐ |

My score for this section:

___ / 12

Section 3: Governance and Safety

Q7. Does your organisation have a policy or guidelines on using AI tools at work?

- | | | |
|----------|--|--------------------------|
| A | No policy exists | ☐ |
| B | Informal guidance only - nothing written down | ☐ |
| C | A basic policy exists but most staff are not aware of it | ☐ |
| D | A clear policy exists and most staff know about it | ☐ |

Q8. Do staff know what data they should not share with Copilot?

- | | | |
|----------|---|--------------------------|
| A | No - there is no guidance on this | ☐ |
| B | Some informal awareness but nothing consistent | ☐ |
| C | Most staff have been told but are not always sure in practice | ☐ |
| D | Clear guidance exists and staff follow it | ☐ |

Q9. Is your organisation aware of EU AI Act Article 4 obligations around AI literacy?

- | | | |
|----------|--|--------------------------|
| A | No - we have not heard of this | ☐ |
| B | We are aware but have not taken action | ☐ |
| C | We are planning how to address it | ☐ |
| D | We have a training plan in place | ☐ |

My score for this section:

___ / 12

Section 4: Skills and Training

Q10. Has your team received any formal AI or Copilot training?

- | | | |
|---|---|--------------------------|
| A | No training has taken place | ☐ |
| B | A few individuals have self-taught using online resources | ☐ |
| C | Some informal training or demos have happened | ☐ |
| D | Structured training has been delivered | ☐ |

Q11. Do staff know how to write effective prompts?

- | | | |
|---|--|--------------------------|
| A | Most staff do not know what a prompt is | ☐ |
| B | Some have tried prompting but results are inconsistent | ☐ |
| C | Staff can write basic prompts but struggle with more complex tasks | ☐ |
| D | Most staff prompt effectively and get consistently useful results | ☐ |

Q12. Is there an internal champion or lead responsible for AI adoption?

- | | | |
|---|---|--------------------------|
| A | No one has this responsibility | ☐ |
| B | It has been discussed but no one is formally assigned | ☐ |
| C | Someone is informally leading this | ☐ |
| D | A named person or team owns AI adoption | ☐ |

My score for this section:

___ / 12

YOUR RESULTS

What your score means

My total score:

___ / 48

Score	What it means	Recommended next step
12 to 19 Getting Started	Your organisation is at the beginning of the AI adoption journey. Most staff are not yet using Copilot and governance foundations are not yet in place.	Start with a full-day Copilot Confidence Workshop to build awareness and confidence. Then put a basic governance policy in place.
20 to 29 Building Momentum	Some good foundations are in place but adoption is patchy and there are gaps in governance or skills. A focused push could make a significant difference quickly.	A structured multi-session programme would consolidate skills and close the governance gaps. Consider our 6-session Essentials block.
30 to 39 Gaining Traction	Your team is using Copilot with reasonable confidence and some governance is in place. The opportunity now is to deepen skills and formalise the approach.	The 12-session flagship programme would take your team from confident to expert. Focus on advanced prompting, agents, and sustainable use.
40 to 48 AI Ready	Strong AI foundations - good adoption, clear governance, and skilled staff. The focus now is maintaining momentum and staying current.	Consider advanced programmes, sector-specific deep dives, or bespoke AI workflow automation for your specific processes.

READY TO TAKE THE NEXT STEP?

Whatever your score, we can help. Book a free 30-minute consultation and we will talk through your results, identify the right programme for your team, and give you an honest view of what will make the biggest difference fastest.
